Mr. R. is awesome! He is that rare combination of intelligent, caring, witty and funny! One day I hope ^{to} be $\frac{1}{2}$ the man he is!! What a great teacher! Mr. Schmidt is equally outstanding - obviously she is learning from a master!!

The course was helpful and I believe that I will be better prepared for the diploma exam. Our instructor was very experienced and knowledgeable.

I really liked the little experiment in the beginning of class. It was good to visualize the material being taught.
