

Course: Chem 30 RTD Teacher(s): Allison

Actually loved her class
I've never enjoyed learning
Chemistry until this weekend

The review packs are awesome we covered everything and it didn't feel rushed. It will definitely help me on the diploma.

Ms. Donners rap skills are awesome

I Loved this course! Alison was a great teacher, she made our lessons fun and easy. I have learned a great amount from our teacher. I feel more confident about going into my diploma. I will definitely be back to take a different RTD course.

A Big thank-you to Alison! 😊

It was a great way to review. Allison did a great job and made chemistry fun. Her songs and jokes were quite funny and useful in remembering things for the exam.

The teacher was amazing and seemed like she knew a lot about the diploma. Her explanations were clear and she was more than willing to offer additional help to those who needed it.

I thought that it was great. I loved how happy Allison was and her jokes kept everyone into it. She knew her stuff, and yes, I'll be back in June!

I really loved it. Made me feel more prepared for my diploma. I think that you should use Alison as often as possible for this RTD because she made it a good learning environment. She is an AMAZING Chem & teacher! I will most definitely be back for my Social 30 RTD!

Allison is literally the best chem teacher I have ever had. Her jokes are actually so great and her songs and analogies

Course: Chem 30 RTD Teacher(s): Allison Donr

#welovedallison

The teacher we had was just fantastic - not only did she keep me interested, but she helped me understand things that my teacher just couldn't this year. I will come back.

I enjoyed coming to hear a different teacher than my own explain the course concepts. It was very informative and useful to me as I prepare for my diploma. I loved how Alison made jokes and introduced us to songs about chemistry i.e. Ice tables cells

- I actually enjoyed the rapping and the lame jokes.
- Enjoyed the opportunity to work on questions during class / ability to ask questions
- Learned lots of new tricks / helpful tips
- Miss Donner was excellent! (thanks for putting up with all the Mac kids in the back 😊)
