

Course: Social 30 RTD Teacher(s): Brett Skaug

Really great. Informative. Great teacher. I feel better going into the diploma.

Keep Brett. This weekend I honestly learned how to write social essays, and more that was never talked about in class. He was easy to talk to, wasn't intimidating, and knew how to teach.

The kahoots were helpful and the group discussion helped get different view point on sources.

Our social teacher never broke down our written assignments at all, so I very much appreciate how you divided it up

Thought the course was awesome and was very helpful → especially within the writing portion (Part A)

Brett was funny and made the course interesting :)

I like the split weekend course!
