

Course: Biology RTD Teacher: Graham

- Fantastic teacher, explained things very well + made sure it was all clear. Knows a lot which helped understand things better.
- Helps me feel more confident for the final test.

Graham knew all the little hints & told us what to really focus on

Super awesome. I learnt more in 4 sessions than I did in bio all year. It was easy to pay attention and he reinforced anything that I wasn't completely confident with.

Teacher's were great and got their point across. Graham's summary of what to know, helped

Course: Bio 30 Graham Ferrige

I took my diploma last semester and did not do as well as I had hoped (dropped 74%). I feel that if I had taken this course I would have achieved the mark that I wanted.

Teacher was awesome!
Study Material was easy to understand.
Lots of time to ask questions and get help 😊

Course: Bio 30 RTD Teacher: Graham

I've learned more in 4 RTD classes than in the entire Bio 30 course at school. Wish I had this teacher to teach my course at school.
