Course: Chem 30 RTD Teacher(s): Grant Coljin

The teacher was very good! I learnt more in the 4 days
with him, than I did in the whole semester with my teacher.

GRANT WAS VERY ENERGETIC AND MADE THE CLASS MORE
ENJOYABLE! HE KNOWS HIS STUFF AND WAS VERY
HELPFUL. I LOVED HOW HAPPY HE WAS! 😊

I loved Grant's energy, he brought life to
the class and made it enjoyable.

Grant was always very energetic + passionate about
the course which greatly helped with staying
focussed. The review was great + will for sure
help me on the diploma.

This really helped me figure out what I needed
to understand better. Coming to this diploma
prep course was good for me because things were
explained in a different order and in a
different way than I was originally taught.
Grant was very knowledgeable and good at
keeping things simple Thumbs up!

Diploma prep was very helpful! It was nice to have a very energetic teacher who seemed genuinely cared about our learning. I learnt a lot of cool tricks to apply and feel confident going into my diploma! Thanks so much!!!

Grant was an unbelievably engaging & enthusiastic teacher. I wish I had him throughout the year because my love of chemistry would have increased and I believe I would have had a much higher average. He taught us more in these 16+ hours over my chem 30 teacher.

Grant was so fun and clear. He definitely knew his stuff.

The teacher was awesome! It was really easy to understand the concepts. I learnt a lot of efficient, timesaving tricks to solve problems and plenty of real world examples were given that helped me further understand what was going on in the reactions.
