

Course: Physics 30 RTD Teacher(s): Ian Doktor

There was a good amount of breaks and time for each explanation and time to work on questions. It was a good amount of time in the classroom and the instructor was great. Really knew his stuff and was super helpful.

I feel like this was very helpful review, 10/10 would recommend

The class was enjoyable, even though it was tiring. The jokes Mr. Doktor made were also funny, made the class more engaging. I feel like this class has helped me prepare for the diploma, and the package of questions that was provided was useful.
