I am definitely recommending RTD for my semester 2 friends taking chem. It helped me learn things in an easier way than I did in class.

Really enjoyed the RTD review course I believe the review packages provided myself with strong study tools to prepare for the diploma and the instructor helped me develop some of my skills I didn't quite understand throughout the semester.

Amazingly done, very very helpful.

I take RTD for all my diplomas & love it.

Mr. G was funny & really knew his stuff!

I feel pretty good going into this diploma.

Mr. Guilloux was very helpful and the course was extremely thorough.

ing to us for help on your diploma – now go forth and rock it!

Mr. Guilloux is a fantastic teacher and the diploma prep has definitely boosted my confidence in my chemistry abilities.

Solid review, better than Donert!

(I took it last year and it was insufficient in comparison)

I really enjoyed it. The teacher not only went over questions, but also went over course information and why these things happen and how. He also taught us easy ways for us to remember how to do questions properly.

Larry was awesome. Knew his stuff and made the class bearable. Since chem is a tough course.

would recommend this to students taking diplomas next semester or next year.

Larry was a really good teacher. He knew his stuff inside and out and managed to clarify everything, and anything hazy in my comprehension of the curriculum. This course will definitely help me ace this diploma.

I like that the teacher focused on the stuff we really need to know and not useless extra information.

Larry was very helpful + I feel like I learned a lot more here than I did throughout the whole semester.

teacher made everything seem simple and easy to understand. He used good analogies and applied concepts to real life situations to make things ~~as~~ relateable. Fun! (Timbits helped too ~)

Really liked Mr. G; super smart and pretty funny
