

The only reason why I took this prep is because I heard Mr. Filippetto teaches here and I heard that he is an amazing teacher and he was!

Very helpful course

Strong teachers

Marco was great at Math, and a great teacher overall! It was interesting watching him crunch big numbers without use of a calculator

Marco is a great teacher. 100% made the class enjoyable. The class size was too large, but other overall RTD is doing great.

Both Barb and Marco were great! really know their material. I feel good going into this diploma, knowing I can receive a high mark.

I loved how close it was for me and the enthusiasm from the teachers. I found the large focus on diploma examples to be very helpful and made me feel more confident going into the exam.

I had more class with Mr. Filipetto than Mrs. Gajdos, but both are excellent teachers. There was never a dull moment in class for me. Content was covered thoroughly and I can confidently say that I've got a better understanding of everything because of the awesome teachers. Thank you so much for your time & effort. 😊

Instructors were energetic and very helpful, made sure to answer questions walked around during question-work time

- Snacks were awesome! THANK YOU!!
