

This prep was amazing. He taught things my teacher barely even went over. Gave really good examples which made me understand the questions better.

Sample Student Feedback

Mr Ryall went above and beyond, using thorough explanations, lots of energy, and patience when help was asked. It is stressful to prepare for diplomas, but Ryall made it pleasant, and helped me feel more confident going in the exam.

Thanks Mr Ryall!

Course: Chem 30 RTD Teacher(s): Michael Ryall

It was very helpful. The teacher was fantastic! Definitely would recommend it.

Very good review, very helpful to know what type of questions will be on the diploma so that we can be best prepared for when we have to write the diploma. Mr. Ryall is an awesome teacher!!

Mr. Ryall was great! He explained everything very well and told us what was most likely to be on the diploma.

This course was FANTASTIC! - Mike made it interesting and easy to learn. I actually don't hate Chemistry now! I was able to understand concepts much better and can say I am confident going into the diploma. I don't know what I would have done without you guys!

The course was very useful and has been a great review to help me remember parts of the course. Mike Ryall was a great teacher, and gave easy methods to remember things, he has been very helpful.

I loved it! Mr. Ryall was very thorough and explained things well! I feel more confident going into the diploma.

I would not have been able to focus on my own, and Ryall is cool.

This RTD course has been awesome! It has refreshed my memory of many concepts, and Mike has introduced some methods to solving questions that are different (and sometimes preferred) to the ones I was used to working with. The course package is great as it outlines the most important content and provides us with a lot of practice. All together this has been great and I'm sure it will improve my diploma performance.
