Awesome course, great teacher! Learned a ton of tricks thanks so much!

I loved it! Especially the question answer period. Mike is an awesome teacher.

Saliani was great! He went slowly through units and allowed lots of interaction w/ class questions and always having time to walk around to answer questions.

The classes were really helpful and the instructor knew the course material really well.

The handouts had lots of good information and practice questions.

Saliani really thoroughly went through the course really well, liked him and it made the math easier.

Mike was awesome. helped me out A Lot!

Very well done, well instructed, enjoyable, I would definitely do it again and recommend it to others. Thanks very much.

One of the best math preps. Both instructors were helpful and knowledgeable - I enjoyed the pizza, cookies and water! Very nice touch.
