

- Mr G. was like a physics encyclopedia and was very funny.

- Man, I didn't even fall asleep!

Course: Physics 30 RTD Teacher(s): Phil Goldthorpe

The instructor did an amazing job, made the class very enjoyable. 6 hours felt like 3. He helped me understand quite a few concepts such as derivations of formula's that I previously had no idea. Instructor I'd give a 11/10

Phil is by far the best teacher I have ever been taught by my entire life. His skills at explaining difficult and complex concepts are exceptional. He has everything down to a point of expertise. I wish he taught me the course.

Awesome course! Awesome instructor!

I recommend taking an RTD course again. Thankyou Phil.

Course: Physics 30 RTD Teacher(s): Phil

If it wasn't for this review I don't know how I would have done on the diploma.

Phil Goldthorpe is an amazing teacher! He is extremely engaging & really helped me comprehend the material in such a short amount of time. Having the course right before the exam (on Monday morning) was really helpful. The classroom & Robbins center is lovely.

He was a great teacher and knew what he was talking about. Made Physics more understandable and it was very enjoyable.

It was great! Mr. Goldthorpe was 10x better than my current teacher. I learned alot of stuff that we were not taught.

Course: Physics 30 RTD Teacher(s): Phil

Awesome course! Awesome Instructor
I will recommend to friends.

Course: Physics 30 RTD Teacher(s): Mr Goldthorpe

Such a great teacher! Told us exactly what we needed to know for the diploma.
